

INFOCADO CROP FORECAST

Quarterly Report—January 2007

Welcome to the first quarterly Infocado report. You will receive a similar report in the second half of April, July and October. Each report will show the last 12 month's dispatch figures and the coming 12 month's forecast figures including both Australian and New Zealand avocados where possible.

Australian Avocados - 2006 Dispatch / 2007 Forecast

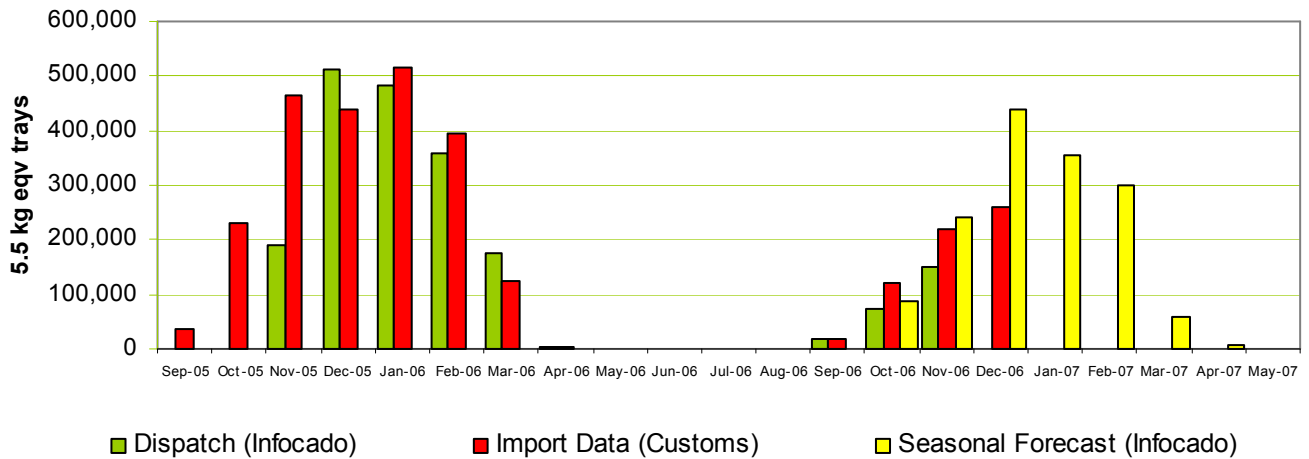

NB: Both the tabulated and graphically represented (Australian) figures have been adjusted to represent 100% of forecast production. The dispatch figures for 2006 are however still lower than would be expected because 2006 was the rollout year and there was an initial time lag as packers began to contribute to the system.

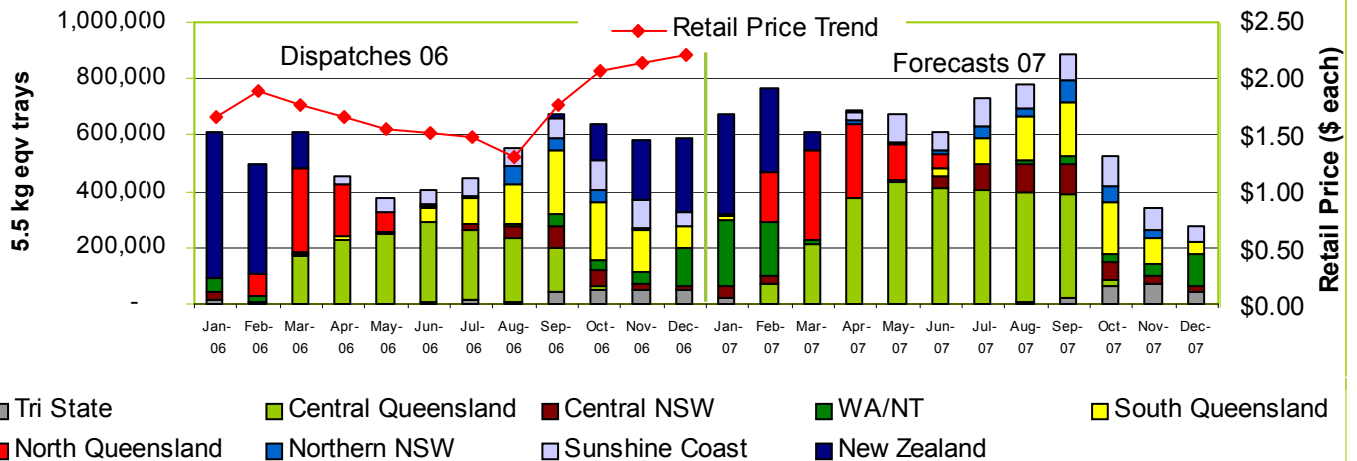

2007 Australian Avocado Production Estimates 5.5kg eqv trays

North Queensland	941,524
Central Queensland	2,661,222
Sunshine Coast	720,140
Southern Queensland	809,748
Northern NSW	274,176
Central NSW	528,318
Tri State	234,094
WA/NT	681,559
Total	6,850,781

New Zealand Avocados - Dispatch and Forecast

Australian and New Zealand Avocados - 2006 Dispatch / 2007 Forecast

NB: NZ Dispatch figures are sourced from Australian Customs, NZ Forecast figures are sourced from Infocado Seasonal forecast figures. Seasonal forecast figures from NZ are only available up to March 2007
