Talking Avocados electronic copy option

The next edition of Avocados Australia's quarterly magazine Talking Avocados is soon to be printed.

As you are probably aware, Talking Avocados is our only regular hard copy publication used to communicate our news.

In the past our feedback from industry has been that growers prefer the hard copy, however, if you would prefer to receive an electronic copy instead, please contact the Avocados Australia office on 07 3846 6566.

Regards,

John Tyas
Chief Executive Officer
