by Friday 12th August 2016

Qualicado Update Program

This year the program has been split into two one-hour sessions.

The first session 'Industry Update' is for those that are interested in getting a higher level snapshot of what is happening in the industry, in regard to production trends, supply issues, future export opportunities, relevant industry R&D etc.

The second session 'Technical Update' is a more detailed look at technical issues related to avocado supply chain management, including the latest research findings regarding fruit management to maximise quality, future research and industry support.

Who should attend?

Session 1: Industry Update: Anyone involved in avocado marketing, sales and handling, including CEOs, business managers, sales people and technical managers.

Session 2: Technical Update: Anyone involved in the technical aspects of avocado handling and ripening including technical /QA managers, ripeners and other technical staff.

We encourage attendance both sessions as this will give you a good overview of everything happening in industry.

Purpose of the Qualicado Update:

The Qualicado Update is part of a broader program to engage industry participants and foster better business outcomes driven by improved product quality for the end consumer. To find out more about the Qualicado program select the 'Services' tab at the Avocados Australia website (<http://industry.avocado.org.au>). .
